Research Position in Fish and Shellfish Health

Location:

Israel Oceanographic & Limnological Research (IOLR)
National Center for Mariculture (NCM), Eilat, Israel

Position Type:

Full-time research position

Scientific Field:

Pathology of aquatic organisms in intensive aquaculture

Position Description:

We are seeking a highly motivated **veterinarian or biologist** to join our research team at the National Center for Mariculture (NCM) in Eilat. The successful candidate will work in the field of **aquatic animal health**, focusing on both **infectious and non-infectious diseases** in fish and shellfish cultured under intensive conditions.

Responsibilities include:

- Diagnostic work involving **viral, bacterial, fungal, and parasitic pathogens**
- Conducting **experimental studies** on disease agents and culture-related health conditions
- Applying a **broad epidemiological approach** to disease prevention and treatment
- Developing **control and management strategies**
- Collaborating with ongoing research projects
- Actively seeking **external funding** to support research activities

Requirements:

- Degree in **Veterinary Medicine** or a **Ph.D. in Life Sciences**
- Proven **laboratory experience** in:
 - Tissue culture
 - Bacteriology and Parasitology
 - Histopathology
 - ELISA and immunological techniques
 - PCR and molecular biology
- Strong **computer literacy**

Advantages:

- Postdoctoral experience
 - Independent research planning and execution
 - Experience managing R&D projects at a national/international level
 - Peer-reviewed publications
 - Experience working with aquatic animals
-

Location Requirement:

The selected candidate must reside in **Eilat** and will be based at the **IOLR's National Center for Mariculture**.

Application Process:

Applications should include:

- Detailed **Curriculum Vitae (CV)**
- **List of publications**
- **Degree certificates**
- Names and contact details of at least **three referees**

Please send all application materials to **Dr. Hanna Rosenfeld** at:

 **hanna@ocean.org.il**

More information about IOLR and the NCM is available at: www.ocean.org.il

A full-time research position for a veterinary or biologist is available at the Israel Oceanographic & Limnological Research (IOLR).
